Economic Outlook for 2025 and 2026

LESLIE MCGRANAHAN

Senior Vice President, Research, Policy and Public
Engagement
Federal Reserve Bank of Chicago

Ms. McGranahan's primary research interests relate to the effects of federal, state and local government policy on individuals and households. She has written about numerous government programs including the Earned Income Tax Credit, Child Tax Credit, Supplemental Nutritional Assistance Program, and sales tax. She also closely follows regional and national developments in government spending and revenues. McGranahan's research has been published in journals including National Tax Journal and the Journal of Political Economy. Her work has also been featured in the Chicago Fed Letter and Economic Perspectives, Federal Reserve Bank of Chicago publications.

ERIK A. DOERSCHING

President & CEO
Tracy Cross & Associates, Inc.

Mr. Doersching is responsible for all aspects of economic and residential analysis for Tracy Cross & Associates. He is the project coordinator and lead consultant for each housing study and strategic planning assignment contracted by the firm. Mr. Doersching's national market research and consulting experience encompasses conventional multifamily and single-family developments, townhome/condominium/duplex communities, lifestyle recreational and master-planned residential communities, active adult projects, affordable/workforce housing, and various other urban and suburban residential and mixed-use developments.
